DUBBO REGIONAL COUNCIL

Pricing Policy

FCR – Full Cost Recovery

Price set to recover the full cost of providing the goods/services. In determining whether this principle is appropriate consideration is given to whether there are community service obligations or equity issues that would warrant an alternative pricing principle.

IS – Industry Standard

Price is set by regulation or statute. These fees are set and Council has no discretionary power to alter these amounts

MB – Market Based

Price is set by reference to local market prices. Fees are set to be competitive with local service providers

NC – No Charge

No price charged for the service.

PCR – Part Cost Recovered

Price is discounted to below the full cost of providing the goods/services in recognition of a community service obligation. Funding for these services is sourced from other revenue and by charging a nominal fee to help offset the cost of providing the services.

S – Statutory Amount

Price is set by statute. These fees are set by State Government and Council has no discretionary power to charge more than amount.

This document includes the details of each fee, charge or contribution, Council's pricing policy and a comment as to the purpose of the fee, charge or contribution.

DUBBO REGIONAL AIRPORT

AIRPORT PASSENGER FEES

PASSENGER FEE SUBSIDY – NEW ROUTES

Upon application and approval in writing to the Chief Executive Officer, Council provides a passenger fee subsidy for new routes not being effectively served by an airline, or are a new route introduced into the Dubbo market. This subsidy is not available to routes that are operating under another government subsidy. The subsidy would reduce such passenger fees from \$19.45 per person, to a zero amount per person and would be provided in support of developing new routes.

Note: all 'Passenger and Checked Baggage Screening – per passenger' fees remain applicable. There are not any Council subsidies for security screening.

Note: Western Sydney Port does not qualify as a new route.

Note: Routes that were previously serviced by another airline through Dubbo Regional Airport do not qualify as new routes.

ROUTE VIABILITY ASSISTANCE PROGRAM

Upon application and subject to approval, Council provides a passenger fee subsidy to support route viability offering 50% of passenger fees for a period of six (6) months per year. Assistance will be provided based on evidence of low viability including low load factors for continual three (3) month period. This program is only available to routes that have commenced or been established within the last three (3) years and can only be applied for once in a financial year.

Note: all accounts must be up to date with no arrears.

Note: the program can be accessed for an identified route for a maximum period of three (3) years.

Note: Routes undertaken by an Airline that has previously operated at Dubbo Regional Airport over three (3) years ago do not qualify.

PASSENGER AND CHECKED BAGGAGE SCREENING

In accordance with Department of Home Affairs regulations, all passengers and checked baggage must be screened before entering the secure area of an Australian airport terminal.

Fees and charges associated with passenger and checked baggage screening (per passenger) are to cover the cost for the provision of these services. Council charges screening fees to all Regular Passenger Transport (RPT) airlines proportionally based on share of total passengers.

Annual reviews will be undertaken to determine actual screening costs divided by actual passenger numbers and required adjustments to the per passenger fee will be made for the following year.(*). Council will establish a passenger and checked baggage screening fee equalisation reserve to be reconciled and applied annually.
